Products

We are a design and engineering firm working in the field of wastewater and organic waste treatment. We do mechanical-, electrical engineering, dimensioning, consulting, contracting, commissioning, PLC programming, webscada, instrumentation and many more. We also sell decanters of different sizes.

R & D activities

We have our own lab and workshop to run in-house projects as well as EU funded projects, in a consortium with Universities and other SMEs. Our focus is on wastewater and sludge treatment both municipal and industrial.

Reference projects

Worldwide, please see our references online on our website: [Industrial and Communal](#)
In R&D: [FP7-NOO2 \(www.noo2.eu\)](#)

Innovations

We have 3 patent applications in place:

- one in wastewater treatment technology (SBR).
- the other two in organic waste treatment (recovering valuable nutrients and carbon).

Membership in networks

Association of Environmental Enterprises (Hungary)
Hungarian Wastewater Association
